

---

A new release for the TIASportsApp is now available! We've added a ton of new features to make your experience on your Tia Portal even more enjoyable. Our biggest addition is the ability for you to provide feedback on any of our blog posts. We are working hard to deliver content that meets your needs, so please let us know how we can do better by using this feature in our app. We also have some major changes with our navigation menu. You will find links for all of our blogs, but there are links at the top for Sports, Soccer, and Baseball/Softball portals too! It's much easier than before when you had to search through everything. We've improved the overall speed of our app. You'll notice that it loads much faster now, too! We've also integrated some new features into the app. We now have an option for our blog, so if you're looking for something specific, you can easily find what you want. You can also save your favorite blogs to your favorites list! We hope you enjoy these new features! Lastly, we've added support for push notifications. This is very useful for those who are constantly on the go and need to know when there's a new blog posted! Please let us know what you think of this feature in the comment section or email this information to TiaAppSupport@TIAonline.com. We've added a brand new blog series! We're going to be posting a new article every week about youth sports in the state of North Carolina. We think you're going to love this series because we will be providing information about how to get involved, local programs, and things of interest from across the state! The first few posts will focus on soccer and softball. Please let us know what topics you'd like to see us cover! We've been busy improving other parts of the app that you may have been unaware of until now. We now have the ability to provide access to online coaching classes from within the app. This is a free benefit for all of our members and we think you're going to find these training courses very helpful! We also have a new link on our homepage for our Shop Portal. We've been working hard on developing some great products for TIA members, parents, and coaches. We will be adding more over time, so check back often! There's a lot more that we've added to this update, but we want you all to discover them by using the app! Please let us know if you have any feedback or run into any issues using this update by contacting us at TIAAppSupport@TIAonline.com. Additionally, we're still looking for feedback from our users as we continue to make improvements to the app. Please email us anything you'd like us to improve upon! We hope you enjoy these new features as much as we do! -TIA Staff

TIA Portal is a Web 2.0 software portal system that provides user-friendly access to a variety of resources, including but not limited to: streaming audio and video content, video tutorials, online coaching classes, member training courses, instructional coaches and leagues for various sports. Users can create a space that allows them to organize their content by team or school and collaborate with others from their team or school.
